Displacement fields: prediction and error

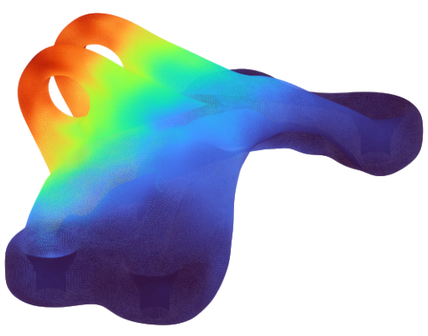

CAD 21_119 / vertical | Registered seed 2026 | Saved final predictions

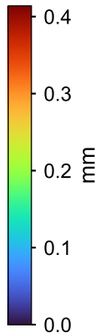

ZERO baseline | 14.67% displacement L2

FEM truth

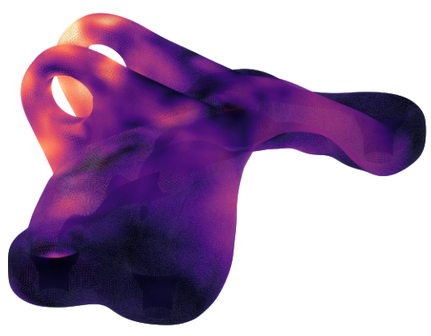

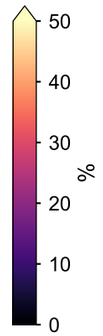

Prediction

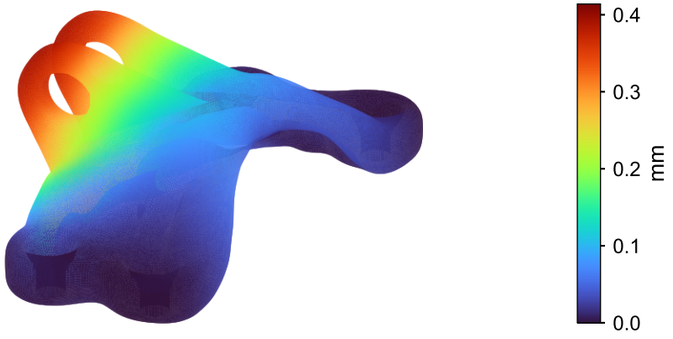

Absolute error / true RMS

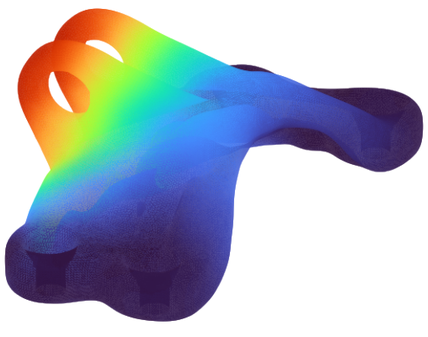

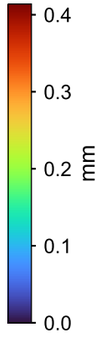

Shared-trunk model | 10.22% displacement L2

FEM truth

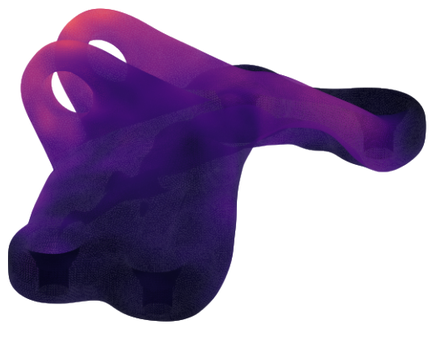

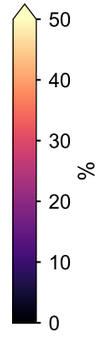

Prediction

Absolute error / true RMS

Original, undeformed geometry. Same field scale and camera for both models; all-node L2 errors.

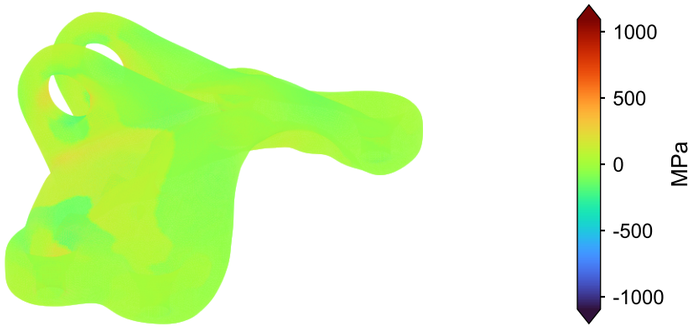

Error colors: 0–50% of true RMS, larger values saturated, as in the reference PPT.

Stress fields: prediction and error

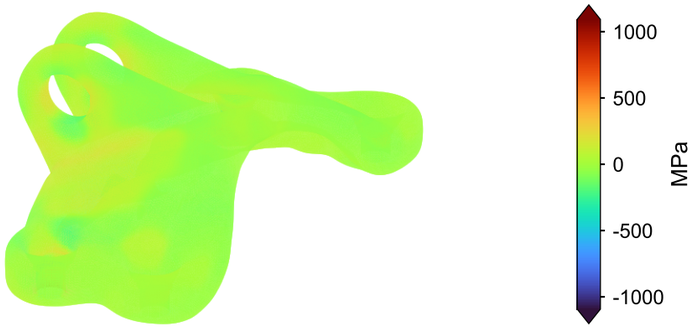

CAD 21_119 / vertical | Registered seed 2026 | Saved final predictions

ZERO baseline | 39.80% stress L2

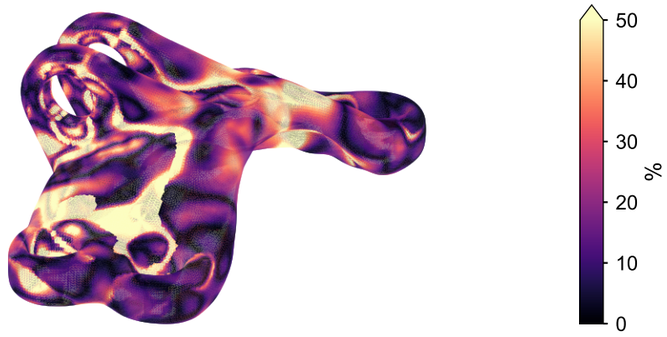

FEM truth

Prediction

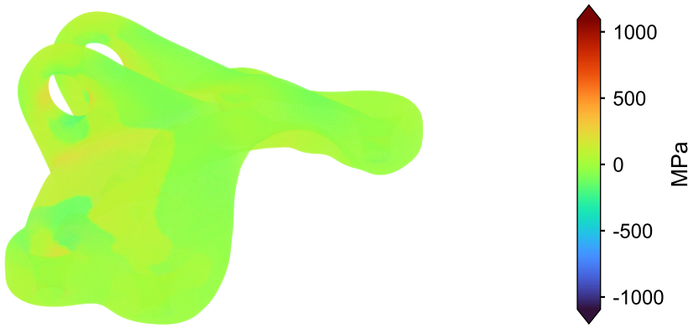

Absolute error / true RMS

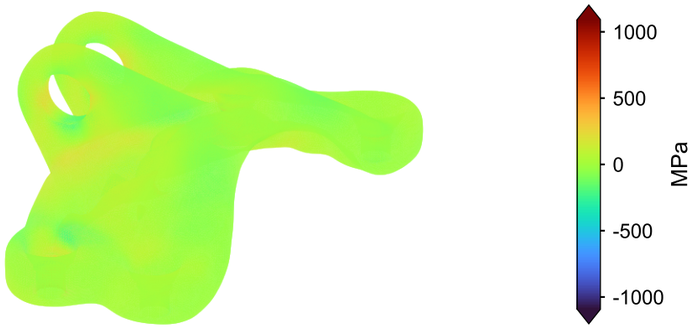

Shared-trunk model | 29.72% stress L2

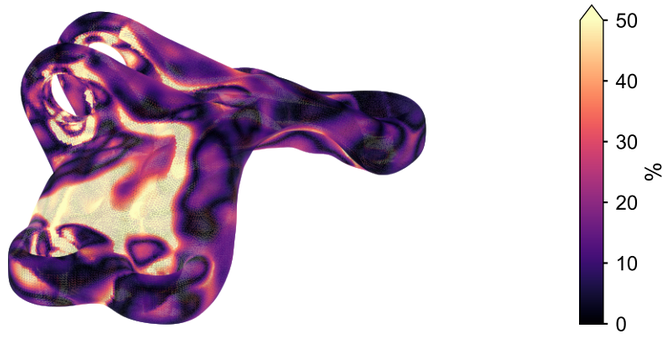

FEM truth

Prediction

Absolute error / true RMS

Original, undeformed geometry. Same field scale and camera for both models; all-node L2 errors.

Error colors: 0–50% of true RMS, larger values saturated, as in the reference PPT.
